

## **Attachment C: World Population Forum**

### **Objective**

You have been asked to be a member of the World Population Forum dealing with the rapid population growth of the world. You are asked to discuss the problems that the world will face in your later life because of uncontrolled population growth.

### **Process**

1. Your think tank is asked to discuss the possible effects of an ever-growing population on the world. You will be asked to consider how uncontrolled population growth will affect the following problem areas:
  - Food supply: Both agricultural and fishing industries
  - Land use: How will the land be changed?
  - Environmental
    - Pollution
    - Deforestation
    - Animal life
  - Natural resources
  - Civil unrest
  - Migration and Refugees
2. Your think tank is also asked to explore ways to curb the rapid population growth.
3. Your think tank will be asked to share ideas with the rest of the Forum participants and recommend what can be done about each problem area.
